

# SENATOR ROBERT HERTZBERG BLOCKED CRITICAL CLIMATE CRISIS LEGISLATION

Senate Majority Leader Robert Hertzberg **STOPPED** critical environmental legislation that would have slowed the climate crisis and protected our health by holding corporations accountable.

Why? Maybe it's because **Senator Hertzberg** accepted more than **\$35,000\*** from corporate oil interests, including:

Chevron .....	\$8,300
CA Resources Corporation .....	\$6,200
Exxon Mobil .....	\$5,500
CA Independent Petroleum Association .....	\$5,100
Tesoro .....	\$3,000
Phillips 66 .....	\$2,500
